

◀ VANTAGE

the *keypad* collection  
2014

“Not only are the aesthetics of the Vantage interface *stunning* but the stations are *simple*, *intuitive* and *adaptable* to the changing needs of a family.”

.....  
- Dr. Carl Black, System Owner -

simply *stunning*

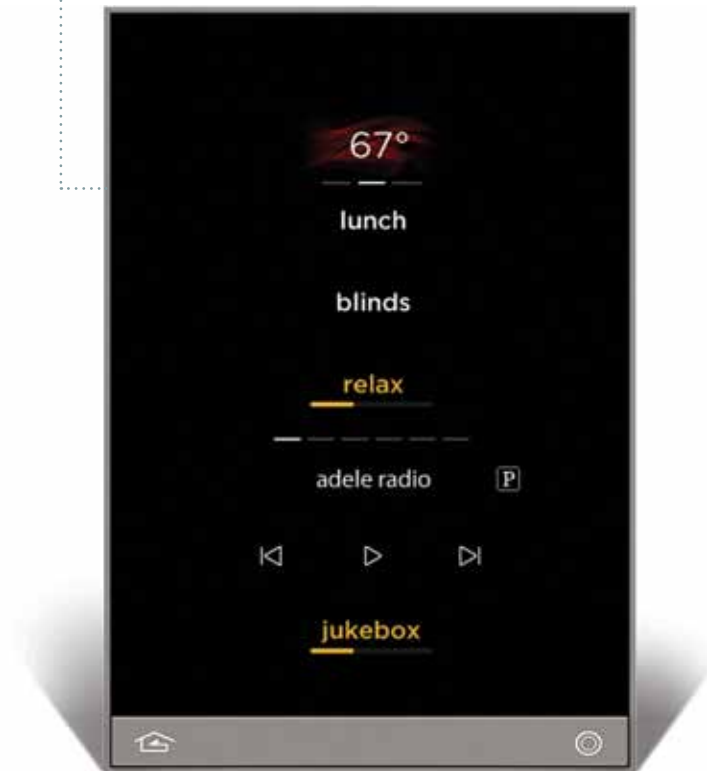

*ideas* for the perfect lifestyle  
design born from experience

Design is not only the way something looks. It is also how we interact with the device and how it works at every level. Ultimately, design defines the entire experience. There is a profound beauty in simplicity and efficiency. True simplicity is about bringing order to complexity.

At Vantage, our designs are born from blending deep understanding of the real life experiences of system users, advances in technology, materials, finishes and the creativity from decades of experience.

*simplify* your life  
at the touch of a button

You're creating your perfect place to work, live or play and you've thought through every detail to make sure it's exactly what you want. The addition of a Vantage system can enable you to truly enjoy your personal paradise.

The keypad collection from Vantage enhances not only the capabilities of your system, but also the atmosphere and ambiance of each room. At the touch of a button, you can alter the feeling in a single room, completely transform your living environment or swipe to your personalized favorites on Equinox 40.

*elevate* your sense  
of style

The sophisticated style of the Vantage keypad collection enables you to add elegance to any room. Whether you desire an interface that blends with the environment or a keypad that enhances your décor, Vantage offers a multitude of options to complement any design. From contemporary finishes clear anodized and polished chrome, to traditional options oil-rubbed bronze and classic arctic white, the Vantage collection allows you to personalize your home to suit your sense of style.

Available in three designs and four button styles, the Vantage collection offers unlimited options for personalization and customization, ensuring your system will fit your life and mirror your unique personal style and taste.

# *bridge* the gap } between form and function

The Equinox 40 LCD keypad is a beautiful and slight on-wall touchpad with a single layer graphical user interface. It provides quick and intuitive control of lighting scenarios, interior climate and audio systems.

This keypad features a continuous glass LCD that automatically adjusts to ambient light, allowing you to read and change settings quickly and simply, even in the dark. And the options for designing a lighting scene or personalized control scenario are unlimited.

Equinox 40 is designed to be the simplest, most straightforward path to immediately accessing lighting control, comfort and local zone audio. Given its “always on” design, the keypad senses presence and wakes up with a simple gesture; it’s as reliable and intuitive as a light switch, but with more functionality. And, with two tactile buttons, it’s incredibly flexible and easy to update as the user’s needs and preferences change. Its Vantage station bus connection also means full compatibility with new and existing InFusion station bus-based systems.

User defined and integrator programmable scenes automate combinations of home systems functions...powerfully designed

Three mini-widgets combine the functionality of thermostats, lighting and audio keypads...simplicity yet ultimate sophistication

Continuous glass LCD and intuitive graphical user interface...reliable as a light switch but so much more

Swipe to reveal three profile pages based on person, time, function or room...your custom interface simplified

Four mini-widget combinations provide the most appropriate room-based blend of climate, scenes, and audio control... custom flexibility

Create a unique atmosphere with your music choices as you swipe left or right...all just a flick and tap away

The only system available that provides the perfect blend of prescribed UI and dealer custom programming... personalization through profiles

Proximity sensor wakes the keypad upon approach; tactile home button takes you back to the home profile page...quick and easy access

Programmable tactile switch can provide traditional "on" function or personalized scene control... the always available keypad

*discover* the inner  
beauty

The Vantage keypad collection combines an elegant aesthetic with impressive functionality, enabling you to create dramatic and sophisticated lighting and automation scenes.

Each keypad features button backlighting which automatically adjusts to ambient light, allowing you to read and change settings quickly and simply, even in the dark. And the options for designing a lighting scene are limitless; from awakening you in the morning to welcoming you home at night, your Vantage system will function however you wish.

With nearly 30 years of experience in the industry, Vantage truly sets the bar for whole-home lighting and automation. Each keypad pairs beautiful form with innovative function, ensuring that your living spaces will look just the way you dream -- elegant, sophisticated, and always well-lit.

Backlighting automatically adjusts based on time of day

Easily see which scene is selected based on backlit button color or intensity

Two-step painting process ensures consistent color definition and reflectivity

Laser-engraved buttons are available with backlighting in any color

Hidden infrared receiver allows you to easily select new lighting or music scenes from a remote control

# { *design* the home ..... of your dreams

Your designs are a true reflection of your sense of style. The Vantage system offers the range of designs to reflect your style through complete personalization of your keypad selections.

On the next few pages you'll find several keypad design options, paired with some of the most popular interior design styles. Use this guide to spark your creativity. Experience the full range of the Vantage offering, from metallic finishes perfect for contemporary homes to elegant designs ideal for a classic color palette. With Vantage, you can create a system that's just as unique as you are.

# *traditional* }

By pairing classic lines with rustic finishes, the traditional style imbues your home with a sense of warmth and luxury. Choose from finish options like original bronze and ivory, as well as button styles such as RPTouch and FineTouch.

Vantage Ivory Align Faceplate  
Vantage Ivory FineTouch Buttons

# { *choose* your 1 ..... keypad aesthetics

Equinox 40 complements the most dramatic design environments. Continuous glass LCD, two subtle tactile switches, minimal on-wall presence and clean, contemporary aesthetics.

The TrimLine II design offers the most versatility, allowing you to select a trim finish that matches or accents your faceplate finish.

With gently sloping edges that blend into the wall, SoftLine is the perfect choice for a classic design style.

The Align design employs dramatic right-angles and striking lines for a contemporary, polished finish.

# { *select* a button style

## 2 style

EasyTouch II\*

EasyTouch II is available in one to five button configurations. This style employs laser engraving and LED backlighting available in any color of your choice.

RPTouch\*\*

RPTouch combines functional enhancements like LED backlighting in any color and laser engraving in true-type fonts with an attractive, subtle design aesthetic.

SquareTouch\*\*

Perfect for traditional and contemporary homes, SquareTouch buttons are mechanically engraved with blue/red or green/red status indicators.

FineTouch\*\*

FineTouch buttons are the ideal complement to a classic faceplate option. They offer delicate, subtle styling, along with mechanical engraving on the faceplate and blue/red or green/red status indicators.
